USB 8 Relay BOX Drivers Instalation

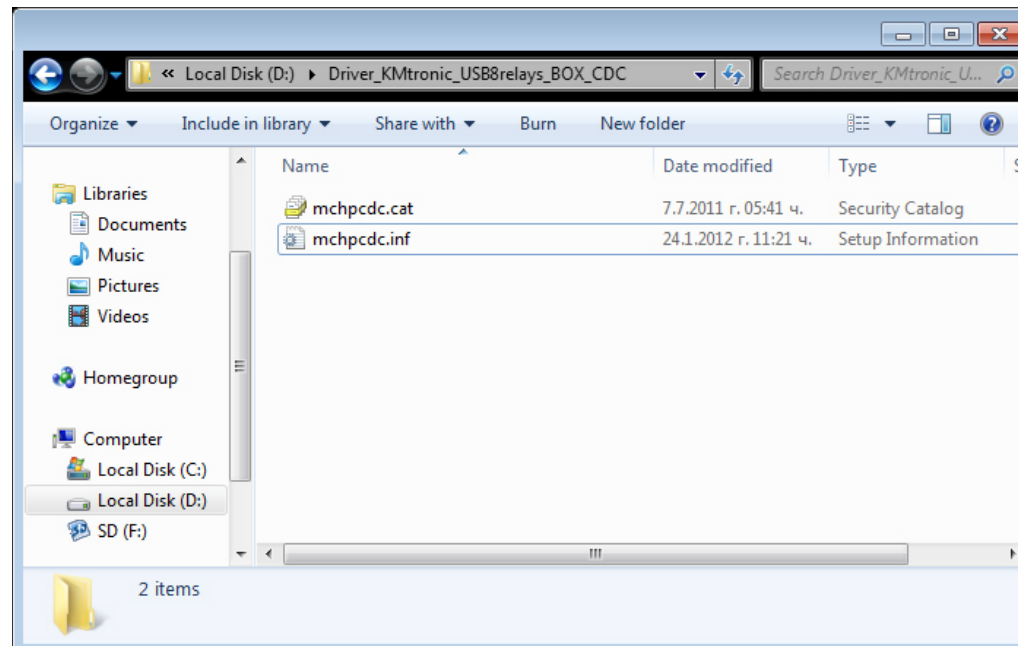

USB 8 Relay BOX

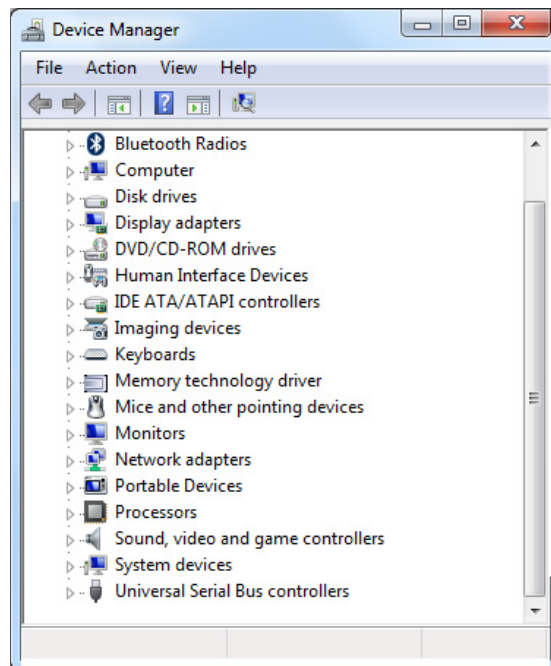

Download Drivers from:

http://sigma-shop.com/software/usb_relay/Driver_KMtronic_USB8relays_BOX_CDC.zip

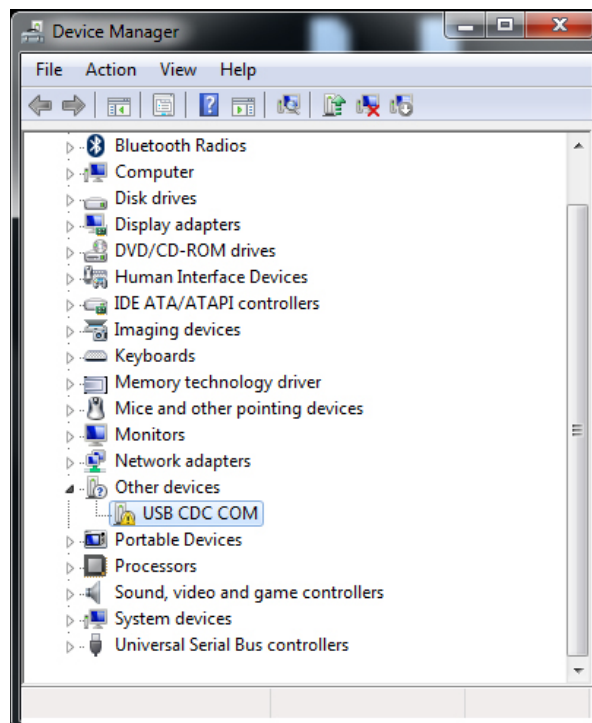

UnZip in separate folder (in example D:\Driver_KMtronic_USB8relays_BOX_CDC)

Open Device Manager

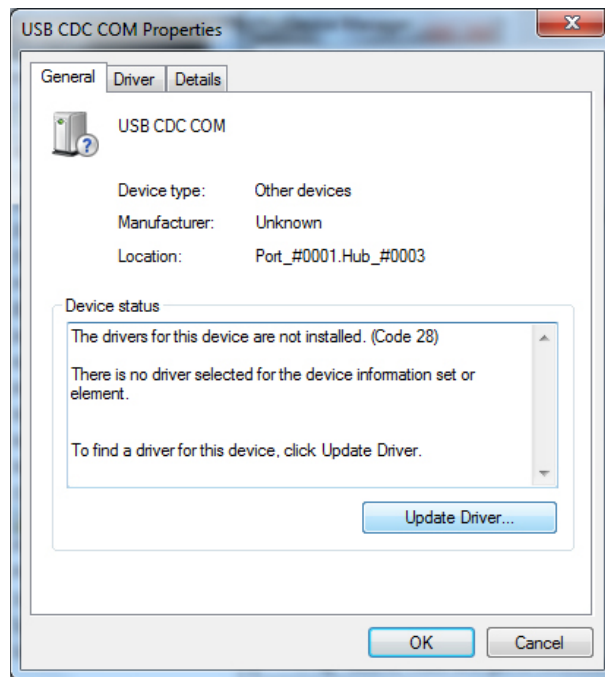

Connect board to PC

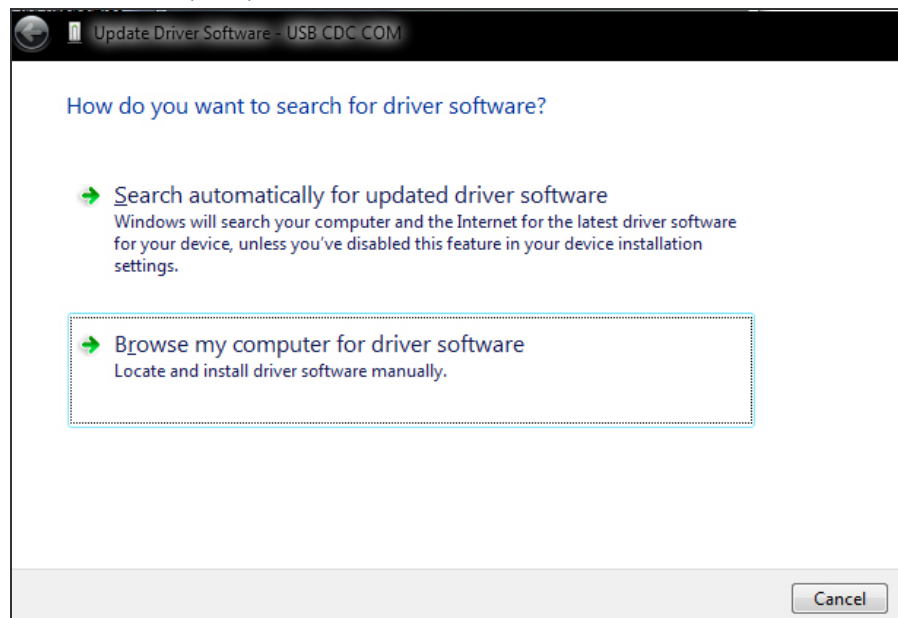

You will see USB CDC COM iunder "Other devices"

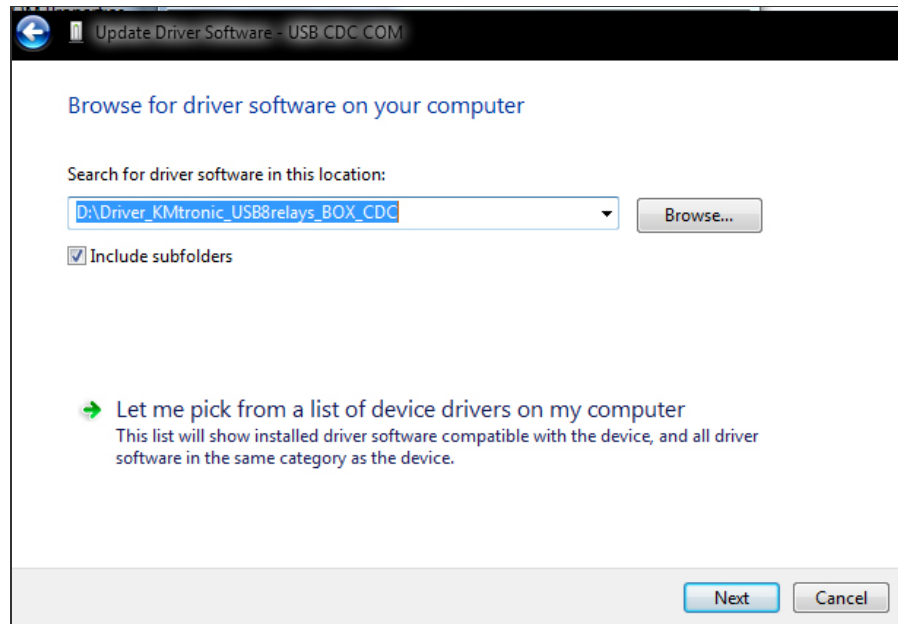

Click on USB CDC COM and next Update Driver...

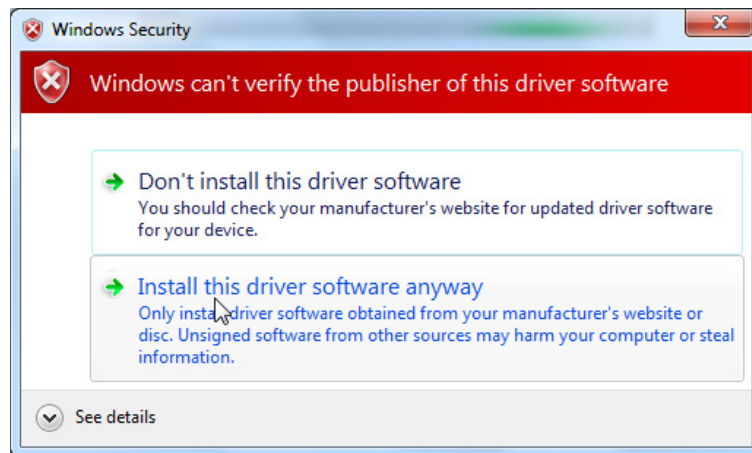

Click on Browse my computer ...

Locate driver's holder and click Next

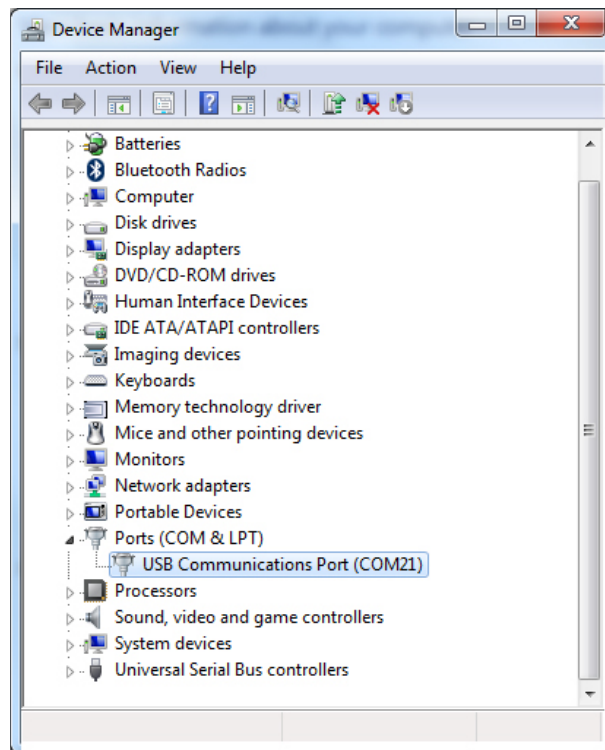

Click on Install this driver ...

Wait until Windows install driver

Windows will show confirmation message that drivers are installed

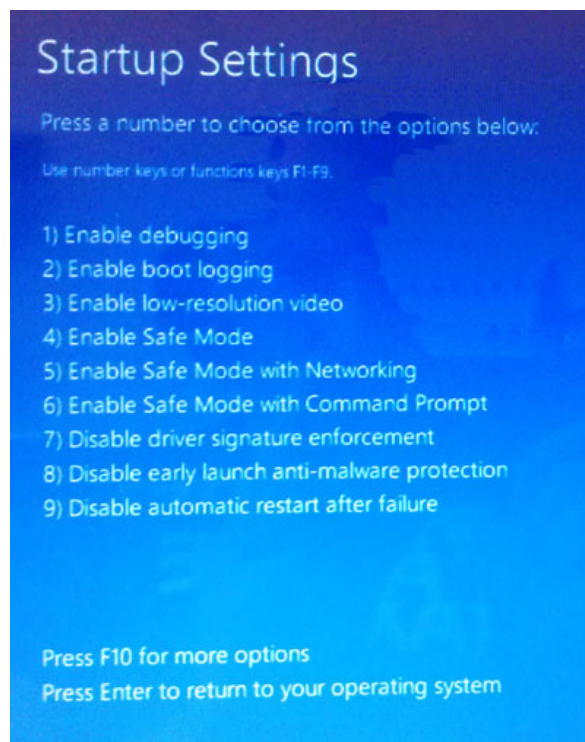

Close and open again Device Manager to check that USB COM is now installed

Windows 8
